

# States Landing Beach, Boat Ramp & Park Design Workshop 1

Wednesday, December 9, 2015

6:00PM

Moultonborough Town Offices

Ernest Davis Meeting Room

**YOU ARE INVITED to work with the Planning Board!**

**on**

**States Landing Roadway, Beach, Park & Boat Ramp Facility**

The States Landing Beach design has been worked on by residents and interested Townspeople during the past two clean up and green up days at the beach, but now you have the opportunity to weigh in on how it may be done, how much gets done and when by assisting the Planning Board with a final design to bring to the voters.

**Workshop 1** will review the changes made to the concept plan that have removed park elements from the wetland buffers and reduced the number of some of these elements. Your work will be to identify which elements of the plan are priorities and which are not, to consider phasing and costs and develop a plan that incorporates those changes.

**Workshop 2 (Date TBD)** will be a conversation with the Town Engineer and Town Staff on the States Landing Road project and discussing prioritizing short term and long term improvements for the entire beach and park area. The goal is to assist the Town Engineer in preparing the final design.

If you cannot attend and have comments you would like to submit, please send them to Mr. Bruce W Woodruff, Town Planner, by mail to PO Box 139 Moultonborough, NH 03254, by fax to 1.603.476.5835, or email to [bwoodruff@moultonboroughnh.gov](mailto:bwoodruff@moultonboroughnh.gov) such that they are received by 4 p.m. on the day before the meeting.

/s/ Bruce W Woodruff  
Town Planner
